- Size: 14' x 24' x 6'
- Made in the USA
- Quick and easy to setup.

Endurance Tent Features

EASY TO INSTALL

The frame's steel tubing with slip-joint fittings allows for a quick and easy setup. You and one of your crew can assemble the Endurance Tent in twenty minutes.

BUILT TO LAST

The frame is made of Galvanized Steel round tubing with Gatorshield coating. Gatorshield galvanized steel tubing is created by adding 50% more Western-grade pure zinc to the production process for increased corrosion protection.

SPACIOUS FEATURES

The Endurance Tent provides ample interior room for numerous configurations.

Make use of interior walls (sold separately) that stretch the length and/or width of the tent for separate offices, waiting rooms, or client privacy.
