

Geoflex Stretch TENT SYSTEM

Simplicity, flexibility, and style. The Geoflex Tent, designed by Baytex, offers all three and comes in a variety of sizes, configurations, and styles.

RAINIER TENT

GEOFLEX STRETCH TENT SYSTEM

FABRIC

Fabric is reinforced at stress points and made from high quality two-way stretch fabric with a PVC coating. It is Fire Rated (certification available) and has maximum UV protection. Constructed using high frequency welded seams, making it durable and 100% waterproof.

HARDWARE

Industry standard rubber dome & base caps, high-quality stainless steel bow shackles & load rated ratchet guy straps are included.

SIZES AVAILABLE

- 20ft x 26ft | 20ft x 39ft
- 30ft x 30ft
- 34ft x 39ft | 34ft x 50ft
- 39ft x 49ft
- 49ft x 65.5ft
- 59ft x 84ft

DETAILS

- Compatible with multiple configurations.
- Install on a sloped area, stretch over gardens, attach to buildings, or join around corners.
- Endless opportunities and impressive, modern designs.
- Additional Geoflex tents are easily linked together to create a larger covered area.
