

High Peak TENT SYSTEMS

The Rainier High Peak tent system provides an elegant look that attracts attention for any event. The frame design allows for quick and easy installation without any tools. Our lite track or full strength systems can easily convert to our High Peak system for a minimal investment. This allows you maximum flexibility and adds more dollars to your bottom line.

RAINIER TENT

High Peak TENT SYSTEMS

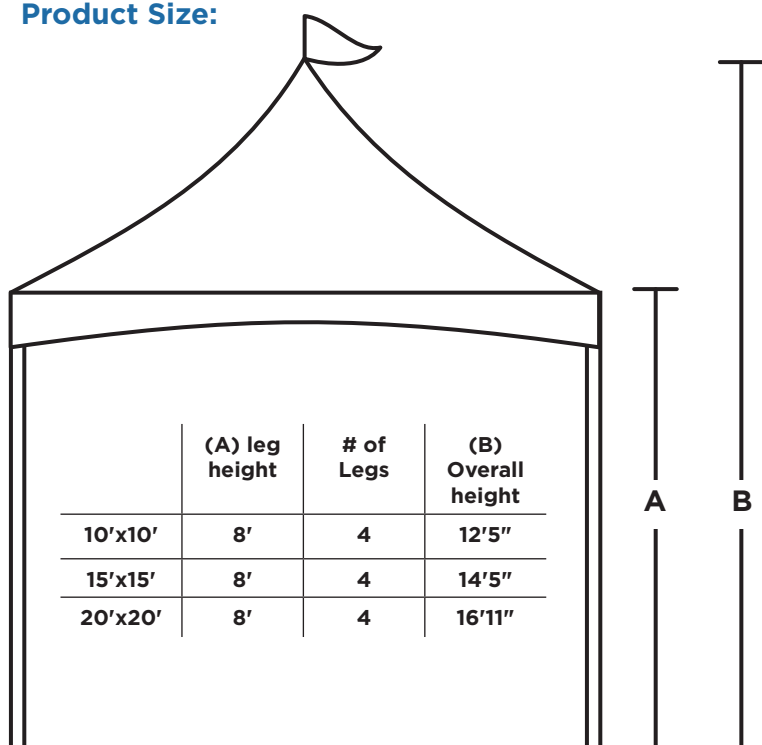

Features:

- High Peak flying centerpole tension top with catenary (arched) design
- Top tie-down straps provide for easy tensioning
