

West Coast TENT SYSTEM

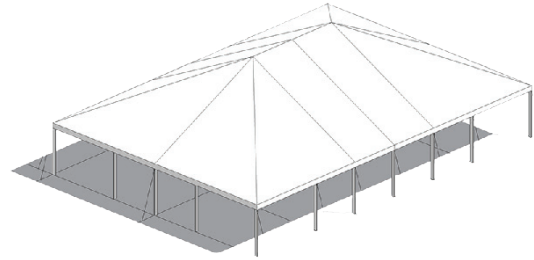

The West Coast tent frame is the ideal short-term and easy-to-install tent. West Coast style tents feature a modern look with fittings that are designed to be durable, yet elegant and simple.

RAINIER TENT

WEST COAST TENT SYSTEM

- The top of each West Coast tent crown is perfectly smooth to prevent snagging during installation.
- West Coast tent fittings have a position pin stop to hold legs, rafters, and spreaders at the correct depth.
- All fittings adapt to 1" round tubing, 2" round tubing and Twin Tube.
- All tubing is manufactured from the best grade structural and architectural aluminum available.
- The tubing is anodized with a deep satin finish.

WEST COAST TENT TOP

The canopy tops used on the West Coast Tent style are designed to cover the entire tent with high quality, 16 oz. fabric. Custom printing and color options are available.

FIBERTECH TENT DOORS

Made using fiberglass windows and frames ensures that the FiberTec Tent Door is the most durable and longest-lasting door available. It is also designed for a universal fit.

BAYTEX TENT LINERS

Baytex tent liners are precisely designed and manufactured to fit and hang perfectly. Available in a variety of styles, colors, and materials, Baytex tent liners transform any event from ordinary to spectacular.
